Summary

Experienced technology leader with over 16 years of software engineering, product management, and executive leadership expertise. Proven track record of driving innovation, improving efficiency, and leading high-impact projects across logistics, healthcare, and media industries. Co-founder of multiple startups, focusing on building scalable, high-performance systems. Demonstrated success in growing teams, optimizing development processes, and aligning technical strategies with business goals. Strong hands-on experience with modern technologies like multi-tenant architectures, Kubernetes, Azure, .NET, and Angular. Adept at fostering cross-functional collaboration, managing third-party vendors, and delivering solutions that reduce costs and increase operational efficiency.

Professional Experience

Senior Software Engineer
Firebend | Aug 2021 - Present

- Built a multi-tenant SaaS headless API for logistics clients like Walmart and Radius Recycling using Kubernetes, Azure, .NET, and Datadog.
- Introduced functional programming, improving coding efficiency by 30% and reducing bugs by 25%.
- Implemented a mono repo architecture, reducing DevOps costs by 20% and simplifying structure by 30%.
- Led a $2M Angular project for Radius Recycling, improving delivery speed by 15%.

Director of Technology
Pelican Cove Counseling Centers | Sep 2022 - Present

- Defined and executed the technology strategy for healthcare counseling services, improving system performance by 25% and reducing support tickets by 20%.

Co-founder
Cinar Tech | Apr 2023 - Present

- Built applications for healthcare, logistics, and food prep companies, achieving a 95% on-time delivery rate and increasing system efficiency by 20%.

Co-founder
RedWhite Co | Dec 2023 - Present

- Developed GateWhiz, a logistics platform focused on protecting warehouses from fraudulent activities, reducing manual data entry by 50% and speeding up shipment processing.

Co-founder
CekiciCagir | May 2018 - Jan 2021

- Scaled the platform to over 1 million members with zero operational costs, achieving 20% monthly user growth.

VP of Growth / CTO
EvdekiBakicim | Nov 2017 - Aug 2019

- Expanded services from one city to all major cities in Turkey, growing revenue by 30% and service coverage by 500%.
- Developed a B2B care platform and an insurance version, increasing corporate partnerships by 25%.

Product Owner
Teknasyon | Nov 2016 - Nov 2017

- Led a flight ticketing product, conducting market analysis and saving the company $500K by pivoting away from low-ROI initiatives.
